Analyst / Programmer

PROFESSIONAL EXPERIENCE

Crédit Agricole S.A. – Landbouwkrediet N.V. (Analyst-programmer) From 01/03/1996 to 31/03/1999

Credits reengineering in April 96: Functional analysis and development with MS Access 2.0. Technical analysis and development with Powerbuilder 5.0.04 and Oracle 7.2 databases. Development of a framework, based on the Powerbuilder Foundation Class and some applications like Credits, Products framework, Customers and Agenda.

For personal experience, development of a tool (PB 6.5) used to generate a documentation of Powerbuilder applications. Migration of all Powerbuilder 5 applications to the version 6.5

G.I.B. Group (Programmer)

From 01/04/1999 to 31/05/2000

Analysis and development with Powerbuilder 5.0.04 and a SQL Server 6.5 database of a new application used to manage detailed descriptions of depots and shops of G.I.B. Group, and to save and to process in a statistical way all defaults and problems of delivery.

Participation to a project and development of an application used to manage GB products and specially detailed informations of products, goods providers, sites and factories, mail, chemical analysis results, customers complaints, reporting, statistics, ...

Technical analysis and development with Powerbuilder 7.0.2 and a SQL Server 7 database of an application designed to process products catalogues of GB providers, entering data about packaging types, prices, validation of catalogues and commercial agreements.

European Commission DG Energy and Transport (Programmer)

From 13/06/2000 to 31/12/2000

Participation to the developments of Client/Server applications, including maintenance of conceptual models with PowerDesigner, development with Powerbuilder 6.5 and Oracle of an application created to manage DG projects. The projects are managed from the beginning to the financial plan or tools to help to the decision, ...

Maintenance of universes, objects, requests and reports in Business Objects, ...

Berlitz International, Inc (Analyst-programmer)

From 01/01/2001 to 31/12/2006

Functional analysis and development with Powerbuilder 5.0.04, the PFC and a Sybase SQL Anywhere database of a management application used to help Berlitz language schools employees, to manage informations about the school, the teachers, the customers or groups, the companies, the planning, the invoicing, the accounting, ... I was in charge to propose evolutions, to develop and to install the releases for Benelux, Spain, Portugal and England.

A customized extension were developed to calculate the gross salaries of the teachers.

m-Skills S.A. – Vers l’Avenir, La libre Belgique, la DH (Analyst-programmer)

From 01/07/2001 (*current*)

Participation to the development of an application created to manage the customer subscriptions of the 3 newspapers: Vers l’Avenir, La Libre Belgique and La Dernière Heure. The management includes detailed information about customers, contracts, offers, subscriptions, invoicing, automatic or manual processing of subscription renewals and follow-up, payments, bank processing, ...

Technical Analysis and development of a complete routing system to send the newspapers. The system allows the management of the distribution mode, the transporting companies, the distributor offices, the means of transportation, ... and is used in the rotary press centre to produce all necessary reporting to the logistics (printing reports, dispatch slip, statistics, ...)

Most part of programming was made in Powerbuilder 6.5 with a private framework. The Sybase database is Adaptive Server Enterprise 12.5. Another part of developments is made in stored procedures with Cast Workbench, especially for batch processing or reporting.

From Mai 2005, migration of all applications to Powerbuilder 10.

PBS - Luxembourg (analyst-programmer)

From September 2004 (*current*)

Maintenance and development of a Powerbuilder 9.0.2 application used to manage the planning of security guards. This application is installed in the company Group 4 Luxembourg. A customized extension is made and a Webservice server is developed to export planning data from the SQL Anywhere database to a centralized database and to receive validated data.

Development of customized extensions on a Powerbuilder 9.0.2 management application (customer management, invoicing, accounting, salaries, reports, ...)

PERSONNAL OBJECTIVE

Actually, what is still the most interesting for me is the development of Powerbuilder Applications. It is the tool I know the best and I don't want to be too far from it.

However, I am very interested by Internet creations. I have designed an Internet site at the end of 2003, www.dynasoft.be and I enjoyed working with software's like Dreamweaver MX, Flash MX and Photoshop 7.0. Later, I realized a small PHP application.

In the future, my intention is to learn and work in a .NET environment. .NET platform incorporates, it seems, the last generation development tools and represents the best in conception, originality and efficiency. To start to work in this way, I begin to learn and use Visual Web Developer (Visual Studio) and to create WebServices.

SKILLS

Operating System: Windows XP, introduction to Windows Server 2003
Analysis: PowerDesigner
Programming: Pascal, C, Basic, Dbase III, MS Access, PHP
Initiation: Visual Web Developer
Databases: Oracle, Sybase ASA & ASE, SQL Server, MySQL
Database tools: Cast Workbench, Toad
Reporting: Business Objects End User, Designer, Supervisor
Office tools: MS Word, Excel (VBA programming), Outlook
Main knowledge and main interest: Powerbuilder version 5, 6, 9 and 10, PFC (Powerbuilder Foundation Class) with ORACLE, Sybase (ASA, ASE) or SQL Server.

LANGUAGES

Dutch: basic understanding, good reading
English: very good in general
French: mother tongue

EDUCATION

From 1987 to 1990, Graduate in computing in evening course at the "Institut Provincial de Seraing"
Trainings Powerbuilder by Sybase, in 1996: Fast track, GUI, Exploiting datawindows, Mastering datawindows, Object Oriented. In 1998, Tuning & Performance, Distributed Powerbuilder, Internet applications. Trainings Business Objects by BusinessObjects in June 2000.

Training WebDesigner in September 2003 at the "IFAPME" including Macromedia Dreamweaver and Flash, Adobe Photoshop and Illustrator, HTML, JavaScript and PHP.

PERSONAL INFORMATION

Belgian nationality.
Born in Namur on 20/06/1961
Married
3 Children: Denis 19, Elodie 16, Bastien 13
Hobby: Cycling, "do-it-yourself"
